Director

Initial Ambulatory Surgery Center (ASC) Licensure Survey Preparedness Checklist (07/22/2015)

For an initial ASC license to be issued, the facility must be completely ready to offer patient care, and be able to demonstrate full compliance with all regulations. This compliance must be verified by an onsite survey by the Bureau of Ambulatory Care (BAC) prior to the facility being legally permitted to provide any patient services as an ASC. The BAC office must be notified and updated regularly with realistic completion dates of any construction prior to arranging the initial survey. The facility must be fully prepared to demonstrate compliance with all licensure rules as described at the following link: http://sos.mo.gov/adrules/csr/current/19csr/19c30-30.pdf

For all items below, before onsite survey can be scheduled, facility should indicate readiness by noting the date each item is complete, as well as the initials of the facility staff member responsible for assuring compliance.

>	/The facility has completed all reviews required by the DHSS Engineering Consultation Unit (ECU) to determine compliance with construction standards as described at 19 CSR 30-30.040, including a final plan approval and at typically two site visits by ECU staff. ECU phone number is 573-526-8521.
	Date of ECU onsite visit(s)/
>	/The facility has completed and mailed to BAC its licensure application to be an ASC, including submission of a \$200 licensure fee: http://health.mo.gov/safety/asc/pdf/AmbulatorySurgicalCenterLicenseApplication.pdf
>	
\rangle	For any laboratory tests performed, the facility has obtained a Clinical Laboratory Improvement Act (CLIA) certificate identifying the physician in charge of laboratory services. Processing of this certificate can take several weeks . The CLIA program can be contacted at 573-751-6318 or BOH@health.mo.gov
>	
	Oualified Expert (QE) in radiation safety must have evaluated radiation shielding and performed a machine performance inspection. QE consultation should be done well before facility opens, as this can take several weeks to schedule. QE name or ID and Date of QE Inspection
>	The facility has obtained and has appropriately stocked <u>all</u> routine and emergency medications, and <u>all</u> necessary supplies.
>	All needed equipment and furnishings have been delivered, installed, and checked/inspected as ready for use in patient care, including documentation <i>in writing</i> that all clinical equipment, including sterilizers, has been checked/inspected as ready for use, including: o Sterilizers
	 Emergency/Crash carts All equipment and instruments used routinely in procedures

An equipment and instruments used routinery in proce
